

Health Sciences

Sub-theme Title: Health Sciences and Human Biology: Scientific and Technological interplays for promotion of Sustainable Health

Concept Note

Health and human welfare are increasingly shaped by complex interactions among biological systems, environmental factors, lifestyle and technological advancement. In alignment with the theme “Scientific and Technological Synergy: A Cross-Disciplinary Approach to Support Human Welfare and Environment,” this section will provide a scientific platform for brainstorming and exchanging innovative ideas across biomedical sciences, laboratory medicine, clinical nutrition, public health and allied health sciences. The deliberations will explore how converging technologies, interdisciplinary research and translational approaches can address emerging health challenges, strengthen disease prevention and diagnosis, promote nutritional and metabolic health, and develop sustainable, technology-driven solutions for human welfare and environmental well-being.

Plenary Speakers

1) Dr. Bhaskar Saha

Former Scientist, NCCS, Pune

Title of talk: Science-&Technology in the interdisciplinary contribution to human health and environment

2) Dr. Subrata Chattopadhyay

Address: 28/4A/1, New Ballygunge Road, Kolkata 700039. Mobile: 9969006123.

Designation: ex- Director, Bioscience Group, BARC, Mumbai

Distinction: 1. Sr. Professor, Homi Bhabha National Centre , Mumbai

2. Professor, Biochemistry, Kolkata University

3. Ex-Raja Ramanna Fellow

4. Fellow, National Academy of Science, India

5. Fellow, Maharashtra Academy of Science.

6. Elsevier award

Publications: more than 325 in international journals

Citations: 11737, h-index: 55

Patents: one Indian & 2 USA

Title of his talk: Cool Societal Solutions by Hot Atoms

3. Invited Speakers (BMLT)

Dr. Jayanta Bhattacharya

Dean, Translational Health and Technology Institute (THSTI)

Jbattacharya@thsti.res.in,

mobile- 09560018432

Director, IAVI-Antibody Translational Research Program

- Principal Investigator, IAVI-THSTI HIV Vaccine Translational Research Program (2013-2018)
- Former Deputy Director & Head, Dept. of Molecular Virology, ICMR-National AIDS Research Institute, Pune (2010-2012)

Title of his Talk: Medical countermeasures against priority pathogens associated with epidemics and pandemics

3)Invited Speaker (Human Physiology):

Prof. Nihar Ranjan Jana

Professor

Bioscience and Biotechnology

Mobile- 9971122775

nihar@iitkgp.ac.in

Title of his Talk: Understanding Mental Illness

5) Invited Speaker (Anthropology):

Professor Kewal Krishan

Department of Anthropology, Panjab University, Chandigarh, India.

Email: garkk@yahoo.com, Mob.: 98760 48205

One of the leading Forensic Anthropologists in the world (citations : 169952, i-10 index: 303, h-index: 123)

Title of his Talk: Role of Anthropological knowledge in forensic investigation

Name of the advisors:

- 1. Luca Vannucci, MD, PhD, Prague, Czech Republic**
- 2. Eva Fischer-Fodor, MD, PhD, Cluj-Napoca, Romania**
- 3. Prof. Ajoy Rana,**
Dept. Of Surgery,
Illinois University,
Chikago, USA.
